Entrepreneurship Learning with Academic Excellence

Scan for  
Information / Registration

*I strongly believe that good entrepreneurship education is an important solution to the problems faced by Indonesian youth nowadays.*

*"Entrepreneurship must be acquired in the early years of one's life"*

*Having an entrepreneurial attitude means having the mindset, attitude, skills and knowledge of an entrepreneur which means being able to transform the valueless imaterials into valuable products,*

*"Entrepreneurship transforms trash into gold"*

*"If we're to give a legacy to the young generation of this country then it should be the spirit of entrepreneurship."*

- DR (HC) Ir. Ciputra

**Founder of** Sekolah Ciputra Kasih, Sekolah Citra Kasih, Sekolah Citra Berkat

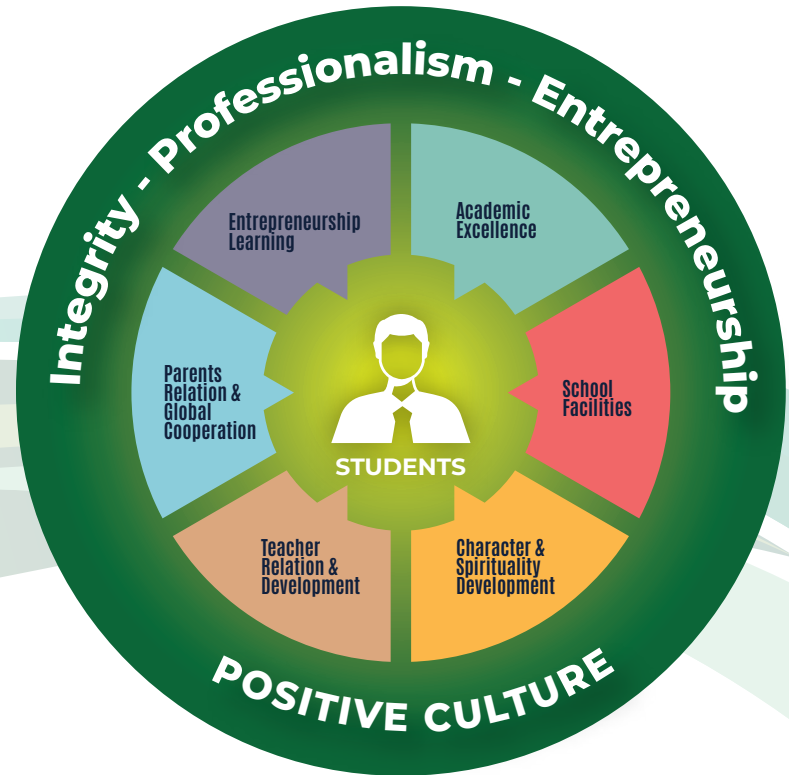

# SCHOOL CONCEPT

## VISION

Nurturing entrepreneurial spirit within holistic education.

## MISSION

To educate and nurture the children to have Godly character and academic excellence, equipping them to be an entrepreneur to transform the nation.

## ACADEMIC EXCELLENCE

Sekolah Ciputra Kasih, Sekolah Citra Kasih and Sekolah Citra Berkas are committed to building a "culture of student achievement", which is the culture of excellence that the school community cultivates on a daily basis, that is proven by the various student achievements, both academic and non-academic, nationwide and at an international level.

Differentiated classes in Mathematics and English subjects are available to give further support to our gifted students.

We offer some subjects (i.e. Mathematics and English at the moment) that are taught using Personalized Learning approach in accordance with students' capacity.

# ENTREPRENEURSHIP LEARNING

Entrepreneurship education is a unique feature of our schools. It is introduced and implemented from Kindergarten up to the High School level through the Program of Entrepreneurship (PoE), based on the exclusive Ciputra Way Curriculum.

This program has evolved for more than 12 years and is still continuously developed. Recently, students were introduced to the program of 'Social and Financial Literacy' in Kindergarten and Elementary classes. We also have an Entrepreneurship Camp program which was exclusively designed for our 8 and 10 graders.

# PARENTS RELATION AND GLOBAL COOPERATION

Parents Relation

Global Education Mission

Sekolah Ciputra Kasih, Sekolah Citra Kasih, and Sekolah Citra Berkat always have a good partnership with our parents to help monitor the teaching and learning process. We provide a Fellow Community, as a special place for parents to communicate and interact with the school.

Our schools build good relationships with various institutions both nationwide and internationally. The purpose of these inter-institutional relationships is to broaden horizons, develop science, increase knowledge, improve technology, and understand culture. Our schools have a sister school program with Global Vision Christian School, South Korea. Every year, the Winter School program is conducted there, which involves the active participation of students from our schools.

# TEACHER RELATION AND PROFESSIONAL DEVELOPMENT

Our schools promote a warm atmosphere between teachers and students. We believe that creating positive teacher-student relationships can change student behavior and engagement. Our work throughout schools has shown that building those positive relationships leads to better teaching and learning.

Teacher Professional Development (TPD) is manifested in a Focus Group Discussion (FGD), which is a weekly discussion forum for teachers based on their faculties. Through this regular knowledge-sharing activity, teaching materials are reviewed and discussed with the experts before being taught to students.

The schools have a yearly training target that teachers must meet. The competence and pedagogical skills of teachers are regularly nurtured through continuous training and developed in line with future needs. We are also developing standardized Teaching, Learning, and Assessment across all our schools.

# STUDENTS' WELL-BEING THROUGH CHARACTER AND SPIRITUALITY DEVELOPMENT

We believe that every person is special, unique, talented, and deserves happiness in living his life's process. Our commitment is to developing a Well-being School where students are happy, can grow their best potential and talents so that students can learn and reach their best achievements.

In its development, Our Well-being School implements Positive Education adopted from Positive Learning Ltd from Finland. We have school programs as implementations of the Well-being School. One is the Youth Summer Experience, a program activated for junior and senior high school students.

## PROGRAM OF ENTREPRENEURSHIP

### KINDERGARTEN

I am Special  
in Many Ways

### ELEMENTARY

LOWER :  
My Community and I

UPPER :  
Enterprises Around Me

### JUNIOR HIGH SCHOOL

VII/1  
My Place in This World

VII/2  
Together We Make This  
World A Better Place

VIII/1  
Entrepreneurship 101

VIII/2  
Entrepreneurship 102

### HIGH SCHOOL

X/1  
Introduction to Industry 4.0

X/2  
Social Entrepreneurship

XI/1  
Corporate-E Experience

XI/2  
Business-E Challenge

XI/2  
Spirit of Start Up

### DIGITAL CITIZENSHIP (A MUST HAVE)

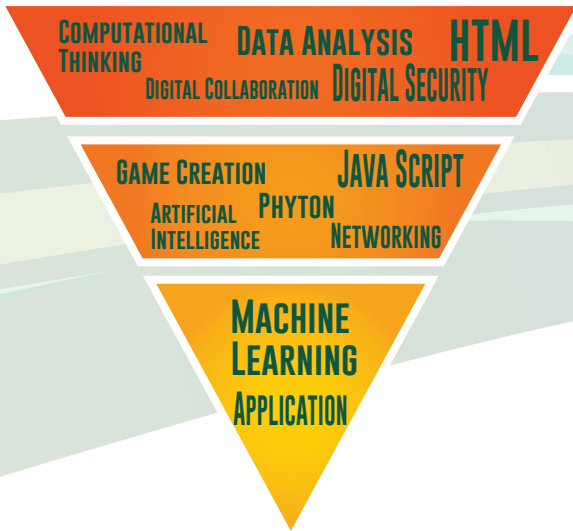

Students are aware of the development, function and basic operations of technology. Our Informatics curriculum is designed for all students from Kindergarten to Senior High School level with a global standard for Digital Literacy, Skills, and Readiness

### DIGITAL PROFESSIONAL (YOU CHOOSE IT)

Students implement technology in their daily life, so they know better than the others. Our school builds learning community to help our students develop their passion for Digital Technology such as Coding and Programming

### DIGITAL SPECIALIST (YOU DEDICATE TO IT)

Students can create new programs or applications as a solution for problems they have found in society. Our School provides a special class for students to learn with experts, which gives students a more in depth knowledge of digital technology

## PERSONALIZED LEARNING

In subjects with personalized learning, the students will be assigned to classes based on their abilities and learning performance. The teachers will deliver the materials using learning strategies and instructional designs that are most suitable to the characteristics of the students and their learning pace. Enrichment activities and additional supports are also available to ensure that all students have access to the same opportunities for success.
